SUMMARY	I am a Data Scientist. One of my best strengths is being a collaborative leader, team player and a human ice breaker. I'm interested in securing a role at a tech firm that allows me to learn and further develop my tech skills. Having worked for about 3 years as an onsite Tech support analyst specializing in computer networking and network troubleshooting, I want to learn and advance my skills.
SKILLS & TOOLS	**Programming Languages / Skills and Tools**: Python, SQL, C++, Java, HTML, React, CSS, JavaScript(node.js), GraphQl, Big Data/ Hadoop. **IT Technologies**: MySQL, Postgres, MongoDB, AWS-Micro services, Tableau Algorithms/Libraries: Machine Learning, Scikit-learn, Scipy, Pandas.
EDUCATION	**University of Southern California, Viterbi School of Engineering**: Los Angeles, CA Data Science and Analytics – Certification of Completion **California State University Northridge**, Northridge, CA Health Information Technology – Bachelor's of Science BS
PROJECTS	**Fast Food Restaurants tweets and effects on Stock market:** *Tools Used*: Python- twitter API, pandas Data-Frames, Google API, yahoo-finance API **Predicting whether you will default on your next credit card bill:** *Tools Used*: Python, Tableau Machine Learning Algorithms: Random Forrest, Neural Networks. **Spotify User listening World wide- what makes a song stream globally:** *Tools Used*: python, tableau, D3-javascript, Spotify data scrapped with python.
EXPERIENCE	**Hello-Tech INC**: Santa Monica, CA Dec.2012 – July2015 *Tech Support Analysts:* - Installed computer related hardware and software. - Computer network troubleshooting. - Programming Network Infrastructure. - Day to day problem solving. - Providing quality in home tech support. **Kaiser Permanente:** Hollywood, CA May.2017 – Sep.2017 *Safety Analyst:* - Analyzed large hospital datasets. - Used machine learning algorithms for future inventory forecasting. - Managed Databases and data warehouse/ data modeling and ETL pipelines. - Run Predictive Analytics on staff injuries. - Use Data to promote workplace safety and prevent injuries. - Participate in group safety projects and meeting.
